

SUPPLEMENTAL  
REISSUE APPLICATION DECLARATION BY THE INVENTOR

Docket Number (Optional)

NPS-PT023RE

I hereby declare that:

Each inventor's residence, mailing address and citizenship are stated below next to their name.

I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number 6502567 granted January 7, 2003 and for which areissue patent is sought on the invention entitled "RAPID FEED PAINTBALL LOADER WITH PIVOTABLE DEFLECTOR",

the specification of which

☐ is attached hereto.☒ was filed on January 7, 2005 as reissue application number 11/031,952and was amended on 1/7/05; 9/11/07; 10/22/08; 10/21/09; 10/29/10; 10/26/11; 2/29/12.

(If applicable)

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

☐ I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b). Attached is form PTO/SB/02B (or equivalent) listing the foreign applications.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.☒ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

This is a broadening reissue. The original patent is believed to be partly inoperative or invalid by reason of the patentee claiming less than patentee had a right to claim in the patent. Identification of at least one error: Claim 1 was corrected to provide antecedent basis for the element "the fins." Identification of at least one claim claiming less than the inventor had the right to claim: Claim 1 was broadened by removing certain claim limitations noted in the amendment relating to the positioning of the "deflector" element by deleting the language "below a bottom portion of the tube extension." At least claim 54 is also broader than original claim 25 at least in that it does not include the language "means for actuating the motor upon demand." Inventorship: Through error of an inventor incorrectly not named, and such error arose without any deceptive intention on the part of the applicant. An inventor is being added. WE HEREBY DECLARE THAT: Every error in the patent which was corrected in the present reissue application, and which is not covered by the prior oath(s) and/or declaration(s) submitted in this application, arose without any deceptive intention on the part of the applicant.
